Education

The University of Oklahoma

Bachelor of Science in Computer Science

GPA: 4.0

Expected Graduation: Spring 2026

- Minor in Mathematics, Minor in Electrical and Computer Engineering, Data Science and Analytics Undergraduate Certificate

Relevant Experience

ConocoPhillips, Application Development Intern

May 2025 - July 2025

- Built a chatbot for a Fortune 500 company that integrated with internal data to accelerate JV Ballot Decision making by well engineers.
- Built modular chatbot components and prototyped autonomous data analysis to enable future agentic capabilities.

Inventory Ally, Software Developer

August 2024 - Present

- Developed and deployed a RAG-enabled LLM system to automate inventory item mapping for veterinary hospitals, reducing manual effort by up to two hours per hospital per week and enabling automatic inventory replenishment.
- Seamlessly integrated the mapping service with the company's existing inventory management platform using Azure Web Applications, Service Bus, and Service Queues to ensure smooth operations and enhanced scalability.

University of Oklahoma, AI/ML Club President

April 2025 - Present

- Lead a team of 17 exec members to manage a student organization of 270+ members.
- Facilitate monthly meetings covering technical and non-technical aspects of artificial intelligence and machine learning.
- Plan and host hands-on workshops on AI topics such as Anaconda/venv environments, local LLM deployment, and data wrangling.

ConocoPhillips, IT-Audit Intern

May 2024 - July 2024

- Automated User Access Review audits using the SailPoint Identity Governance Platform and Python.
- Conducted SOX testing and walkthroughs, generating compliance reports.

Price College of Business, Student Programmer

June 2023 - Present

- Improved team efficiency and accountability by automating reminders and reports using Power Automate, leading to the successful completion of daily tasks.
- Simplified asset tracking by developing an Asset Manager and a Laptop Checkout System using Power Apps, resulting in a streamlined process and reduced errors in asset management.
- Performed an on-site to cloud server migration to ensure compliance with OU cybersecurity policies and increase service availability.

AGRI AI (Agricultural AI), Contestant

Spring 2024

- Analyzed time-series agricultural and climate data to identify key climate drivers of seasonal phenology in Oklahoma tallgrass prairies, presenting findings to judges and earning a third-place prize.

Gallogly College of Engineering, Undergraduate Research Experience

Jan 2023 - May 2023

- Curated a clean dataset of over 6,000 website screenshots and source code with Selenium web scraping.
- Trained a multimodal domain classification model on the dataset using PyTorch and Scikit-Learn.
- Demonstrated the efficacy of a classifier-based DNS Firewall using the model and a Raspberry Pi DNS server.

Skills

Programming Languages: Java, C++, Python, C#, MATLAB, Swift, Visual Basic

Specialties: Data Analytics and Machine Learning (Pandas, NumPy, Scikit-Learn, PyTorch, Tensorflow/Keras, LLMs, RAG, LangGraph/LangChain), Web Development (.NET, Blazor, React, NodeJS, Flask, FastAPI), Ethereum (Solidity Smart Contracts).

Software: Microsoft Office, Google Workspace, Azure, AWS, Mendix

DevOps: Docker, Git + Github, Git Actions, Git Webhooks, CI/CD Pipelines, Automated Testing

Soft Skills: Leadership, Teamwork, Time Management, Strong Work Ethic

Awards/Certifications

- Microsoft Azure Fundamentals Cert, Microsoft Azure AI Fundamentals Cert
- 2025 Hacklahoma Built on Ethereum Award, 2024 Hacklahoma 2nd Place, 2023 Hacklahoma 2nd Place
- 2024 OU AI Symposium 1st Place, 2023 OU AI Symposium 1st Place
- Dean's Honor Roll (2023, 2024, Spring 2025), Mendix Rapid Developer Cert
